

We'll Make It Stress-Free

If you have any questions along the way, just give us a call. 1-800-359-5520. (UK: 0800 056 2853) We're ready to help!

Before getting started, let's make sure this mount is perfect for you!

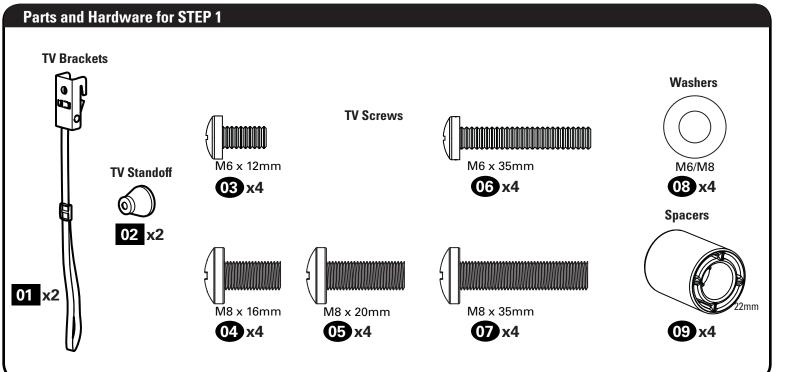

Dimensions

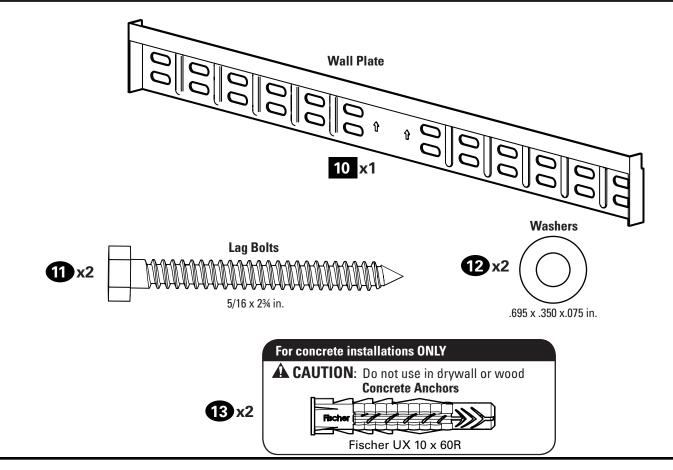

Parts and Hardware

WARNING: This product contains small items that could be a choking hazard if swallowed. Before starting assembly, verify all parts are included and undamaged. If any parts are missing or damaged, do not return the damaged item to your dealer; contact Customer Service. Never use damaged parts!

NOTE: Not all hardware included will be used.

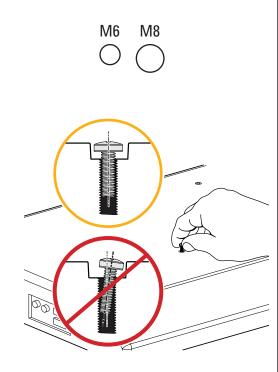

Parts and Hardware for STEP 2

STEP 1 Attach Brackets to TV

1.1 Select TV Screw Diameter

Hand thread screws into the threaded inserts on the back of your TV to determine which screw diameter (M6, or M8) to use.

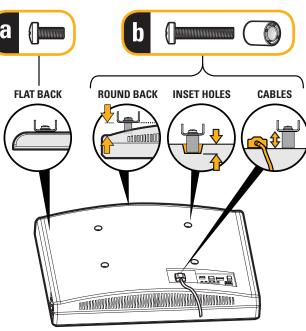

1.2 Select TV Screw Length

If your TV has a flat back AND you want your TV closer to the wall, use the shorter screws (a).

Use the spacers and longer screws (b) to accommodate:

- Round/irregular back TVs
- TVs with inset mounting holes
- Extra space needed for cables

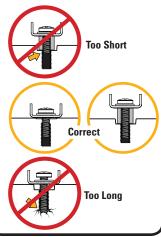

Standard configurations are shown. For special applications, or if you are uncertain about your hardware selection, contact Customer Service at 1-800-359-5520.

A CAUTION:

Verify adequate thread engagement with your screw/ washer/spacer combination AND TV bracket.

- Too short will not hold the TV.
- Too long will damage the TV.

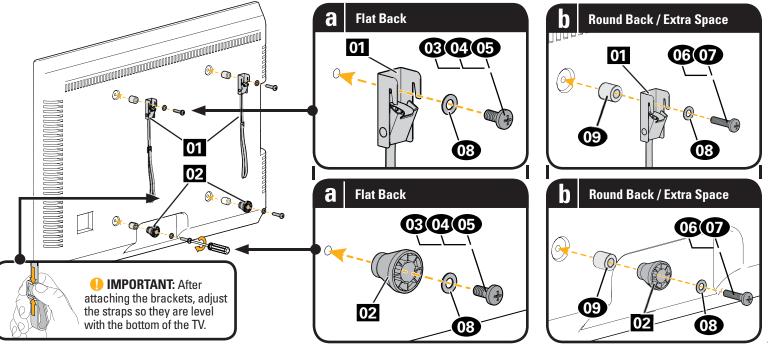

1.3 Attach TV Brackets

Install TV brackets 01 and TV standoffs 02 onto your TV as shown, using the TV screw/washer/spacer configuration you selected for your TV.

CAUTION: Avoid potential personal injuries and property damage! DO NOT use power tools for this step. Tighten the screws only enough to secure the TV bracket to the TV. DO NOT overtighten the screws.

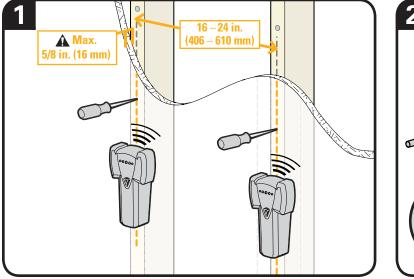

() IMPORTANT: Ensure TV bracket is securely fastened before moving on to the next step.

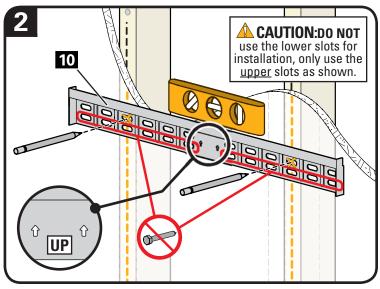

STEP 2A Attach Wall Plate to Wall Wood Stud Option

A CAUTION: Avoid potential personal injury or property damage!

- Drywall covering the wall must not exceed 5/8 in. (16 mm)
- Minimum wood stud size: common 2 x 4 in. (51 x 102 mm) nominal 11/2 x 31/2 in. (38 x 89 mm)
- Minimum horizontal space between fasteners: 16 in. (406 mm)
- DO NOT use the lower slots for installation, only use the <u>upper</u> slots as shown
- 1. Locate your studs. Verify and mark the center of the stud by finding the stud edges using an awl, a thin nail, or an edge to edge stud finder.
- 2. Position the wall plate 10 at your desired height and line up the holes with your stud center line and level the wall plate 10 and mark the holes.

3. Drill pilot holes using a 7/32 in. (5.5 mm) diameter drill bit.

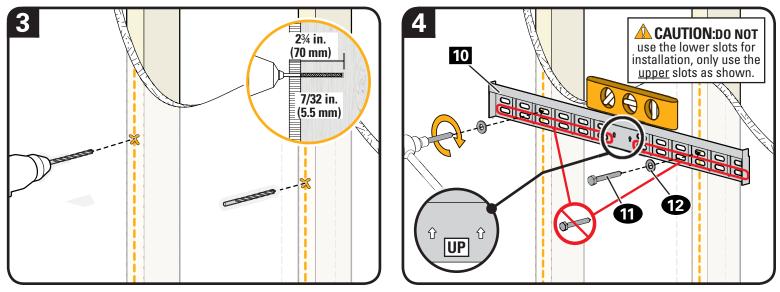

() IMPORTANT: Pilot holes must be drilled to a depth of 2¾ in. (70 mm). Be sure to drill into the center of the studs.

4. Install wall plate 10 using two lag bolts 11 and two washers 12. Tighten the lag bolts only until the washers are pulled firmly against the wall plate.

A CAUTION: Improper use could reduce the holding power of the lag bolt. DO NOT over-tighten the lag bolts.

CAUTION: Avoid potential personal injury or property damage! All lag bolts <u>MUST BE</u> firmly tightened to prevent unwanted movement of the wall plate 10. Ensure the wall plate is securely fastened to the wall before continuing on to the next step.

Go to STEP 3 on PAGE 12.

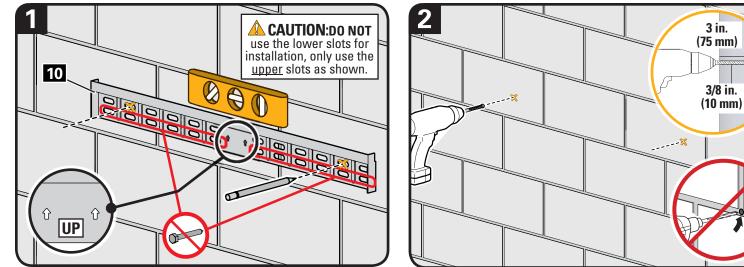

STEP 2B Attach Wall Plate to Wall Solid Concrete or Concrete Block Option

A CAUTION: Avoid potential personal injury or property damage!

- Mount the wall plate assembly **10** directly onto the concrete surface
- Minimum solid concrete thickness: 8 in. (203 mm)
- Minimum concrete block size: 8 x 8 x 16 in. (203 x 203 x 406 mm)
- Minimum horizontal space between fasteners: 16 in. (406 mm)
- DO NOT use the lower slots for installation, only use the <u>upper</u> slots as shown
- 1. Position the wall plate **10** on the wall at your desired height. Level the wall plate **10** and mark the hole locations.
- 2. Drill four pilot holes using a 3/8 in. (10 mm) diameter masonry drill bit.

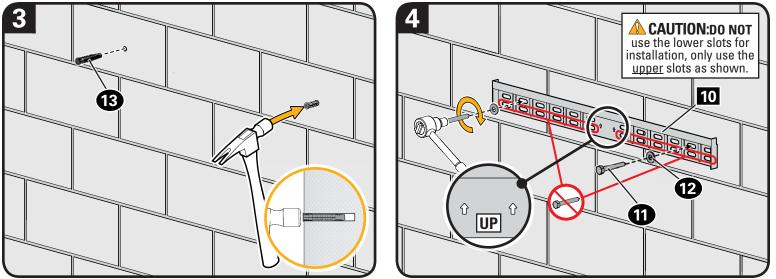

() IMPORTANT: Pilot holes must be drilled to a depth of 3 in. (75 mm). Never drill into the mortar between blocks.

3. Insert two anchors **13**.

A CAUTION: Be sure the anchors are seated flush with the concrete surface.

Install wall plate 10 using two lag bolts 11 and washers 12. Tighten the lag bolts only until they are pulled firmly against the wall plate.
A CAUTION: Improper use could reduce the holding power of the lag bolt. DO NOT over-tighten the lag bolts.

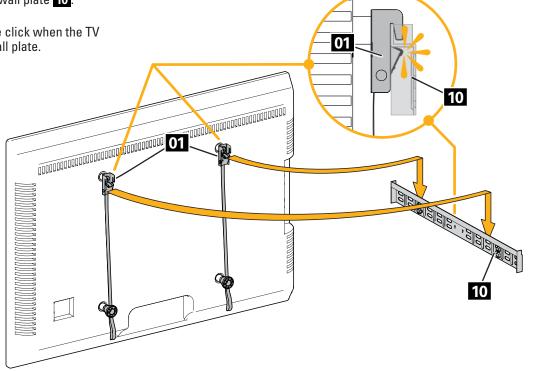

STEP 3 Attach TV to Wall Plate

HEAVY! You may need assistance with this step.

Hang the TV/Bracket assembly onto the wall plate 10.

IMPORTANT: You will hear an audible click when the TV brackets are securely fastened to the wall plate.

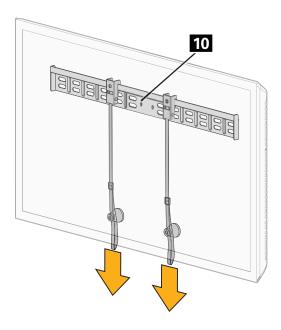

Adjustments

To remove the TV from the wall plate:

- 1. Disconnect all cables from the TV.
- 2. Pull down and hold the release straps, while pulling the bottom of the TV away from the wall.
- 3. Lift the TV up and off of wall plate **10**.

Secura
