19" RACKS

AND ACCESSORIES

Floor Mount Racks

FRONT VIEW

BACK VIEW

Our "S-Series" range of Hypertec 19" Floor Mount Racks cater for effortless installation of both the cabinet and your valuable equipment while maintaining and accessing equipment is also made easy with Hypertec's wide range of accessories.

Featuring a sturdy frame manufactured to precise dimensions from SPCC high quality cold rolled steel with a thickness of 2mm for the rails, 1.2mm for the frame and 1.0mm side panels, making Hypertec "S-Series" racks light without compromising on strength.

CONSTRUCTION

- Sturdy frame made from high quality cold rolled steel
- Rails 2mm, Frame and doors 1.2mm, side panels 1mm
- Colour Black RAL 9005

FRONT GLASS DOOR AS STANDARD

- Fully tempered glass 5mm
- · Clear view of inside cabinet
- Earth lead connected to doors
- Quick release hinges
- · Perforated doors available as optional item

REAR BI-FOLD PERFORATED DOORS

- Perforated for increased airflow
- Bi-fold doors save space when opening
- Earth leads connected
- Quick release hinges

SIDE PANELS

- Removable side panels
- Keyed cam locks included (different key to front door)

RAIL

- Max load 800kg
- RU marking printed on to the front and rear rails for easy placement of components
- Easy to adjust rails
- · Numerous accessories available for rail mounting

CABLE ACCESS

- Generous cable access on top (front and rear)
- Bottom cable access via 5 removable cable entry plates

AIR FLOW

- Fan box included with all floor mount racks
- 600mm Deep racks 2 fans
- 800mm and deeper racks 4 fans
- · Fan box mounted on inside top of rack

DDI

- · 6-way 10A Horizontal rail mounted
- Australian 3 Pin plug and sockets
- · Additional PDU range available as optional extra

CABLE MANAGEMENT

- 120mm between front door and rail for cable management
- Horizontal cable management accessories available
- Vertical cable management accessories available
- 800mm wide racks feature built in vertical cable management

PALLET MOUNTING

- Secured to and shipped on a pallet for safe and easy transportation
- Attached to pallet via brackets quick and easy to remove once on-site

FLOOR MOUNTING

- Four heavy duty castors (2 with brakes) fitted for positioning rack on site
- Four adjustable levelling feet

SHELF ACCESSORIES

- Cantilever trays
- · Fixed shelves
- Sliding shelves
- Storage drawer

Key Features

Included as standard

6-way 10A PDU, 40x cage nuts, fan module, fixed shelves (up to 3), glass front door, perforated double rear doors, castors, levelling feet and earth leads on front and rear doors.

Perforated Double **Rear Doors**

To provide ample air circulation and bi-folding to open in a limited space.

Perforated Front Door

Available as an optional extra. The perforations are machine punched onto the cold rolled steel door.

Sturdy **Frame**

The cabinet is designed for loads of up to 800kg mounted on the 19" rails. It is good practice to mount heavier items low down in the cabinet and lighter items higher up.

Side Panels

Removable for easy installation of components. All racks come with one side panel per side. Keyed cam locks are included as standard.

RU Markings

Are placed on both front and rear rails to ensure easy positioning of components.

Castors

Heavy duty castors are capable of carrying 800kg combined.

Pallet Stabilising Bracket

The cabinet is supplied with brackets attaching it securely to the pallet.

NB: Accessories not included.

Ventilation

Fan modules are included with all Floor Mount S-series racks and are an optional extra for the Wall Mount and Swing Frame racks. 600mm deep Floor mount racks feature a 2-fan module while the 800, 900 and 1000mm deep come with 4-fan modules for increased air flow.

Generous Cable Access

Multiple removable access panels in the floor of the rack accommodate large volumes of cable.

Front Door

The door is easily removed with the retractable mounting hinges. The door is a solid steel frame having a mounted tempered glass panel which provides a clear view of installed components.

Cable Management

A range of horizontal vertical cable management options are available across the rack range. All 800mm wide S-series Floor Mount racks come with vertical cable management channels fitted to the front of the rack.

Power Management

6-way 10A PDU is included with all Floor mounted racks. A range of PDU's are also available, including 10-way, 20-way, horizontal and vertical.

Earthing

All installed doors have an earthing connection point and earth lead fitted.

Mounting

The adjustable mounting feet can carry a combined load of 800kg.

Wall Mount Racks

FRONT VIEW

BACK VIEW

Our "S-Series" range of Hypertec 19" Wall Mount Racks cater for effortless installation of both the cabinet and your valuable equipment while maintaining and accessing equipment is also made easy with Hypertec's wide range of accessories. Our wall mount racks can be used underneath stairwells or tight corners and are ideal when you need to secure a small number of items such as patch panels or modems at eye level height for ease of use and maintenance.

Sturdy frame manufactured to precise dimensions from SPCC high quality cold rolled steel with a thickness of 1.5mm for the rails, 1.2mm doors and 1.0mm for the frame and side panels, making Hypertec racks very rigid under load conditions.

Hypertec Wall Mount Racks are designed to carry your valuable equipment up to a 90kg weight load when installed on suitable walls and in accordance with the manufacturer's instructions.

CONSTRUCTION

- Sturdy welded frame made from high quality cold rolled steel

Wall Mount & Swing Frame Enclosures

Our "S-Series" range of Hypertec 19" Wall Mount and Swing Frame Racks cater for effortless installation of both the cabinet and your valuable equipment while maintaining and accessing equipment is also made easy with Hypertec's wide range of accessories.

Our wall mount and swing frame racks can be used underneath stairwells or tight corners and are ideal when you need to secure a small number of items such as patch panels or modems at eye level height for ease of use and maintenance.

Sturdy frame manufactured to precise dimensions from SPCC high quality cold rolled steel with a thickness of 1.5mm for the rails, 1.2mm doors and 1.0mm for the frame and side panels, making Hypertec racks very rigid under load conditions.

Wall Mount

Hypertec Wall Mount Racks are designed to carry your valuable equipment up to a 90kg weight load when installed on suitable walls and in accordance with the manufacturer's instructions.

Swing Frame

Our range of "S-Series" Hypertec 19" Swing Frame Racks provides all the unique features you have come to enjoy on our "S-Series" wall mount range, with the added swing-away feature. When additional uncompromised access is required, the rack can be unlocked and swung away from the wall allowing full access to the rear of your equipment for installation and/or regular servicing.

Hypertec Swing Frame Racks are designed to carry your valuable equipment up to a 60kg weight load when installed on suitable walls and in accordance with the manufacturer's instructions.

Mounting Guidelines

When specifying your new Hypertec Wall Mount or Swing Frame Enclosure we recommend you follow these simple guidelines:

- The wall used to support the enclosure must be able to carry the
 weight of the cabinet and the equipment (maximum equipment
 weight for wall mount 90kg and 60kg for swing frame). As a
 weight guide to the enclosure cabinet and accessories, refer to
 the previous page. We recommend you discuss your combined
 weights of the enclosure, accessories and data equipment with
 a professional tradesman regarding wall suitability and your
 mounting requirements.
- It is recommended that expansion type bolts (such as DynaBolts), in the top four holes, be used for brick or concrete walls when securing the cabinet to a suitable wall.
- In the case of a cavity wall, there must be internal framing that can be used to fix the enclosure to. Cavity walls without framing are not to have these cabinets installed onto them.
- In the case of Swing Frame Enclosures, ensure there is ample room to allow the enclosure to swing open fully.

NOTE: Do not exceed 90kg maximum equipment weight limit for Wall Mount and 60kg for Swing Frame Enclosures.

Cable Access

- Multiple cable entry/access points on the top, bottom and rear panels
- 1 x removable cable entry plate on top
- 1 x removable cable entry plate on bottom
- 2 x removable cable entry knock outs on rear

Rear Cable Entry -

- Cables can enter rack rear panel via 2 cable entry points
- Cable entry points are knocked out as required

Side Access Panels

- Easy to remove side panels for quick access
- Keyed cam lock available as an optional extra

Sturdy Welded Frame

- High quality SPCC cold rolled steel
- 1.5mm Rails, 1.2mm Door and 1mm Frame and Side Panels
- Maximum load 90kg Wall Mount
- Maximum load 60kg Swing Frame

Key Locks

- Keyed front door for added security
- Side panel keyed cam locks available as optional accessories

Shelves

- Supplied fitted with a fixed shelf
- Cantilever shelves available as optional accessories

Key Features

Included as standard

6-way 10A PDU, 40x cage nuts, 1x fixed shelf, glass front door, and earth lead on front door.

Air Flow -

- Fan cut outs on top for mounting up to 2 120mm fans
- Covered fan cut outs on top prevent dust entering if fans are not installed

Swing Frame Design

- Easy access to installed equipment without affecting the mounting of the product against the wall
- Swing frame has keyed lockable side clip for added security
- Rack can be mounted upside down to offer alternate swing frame direction

19" Marked and Notched RU Positions

RU markings on both front and rear rails for easy placement of components

Earth Continuity Leads

 Fitted with earth lead for continuity between door and frame

Fully Tempered — Glass Panel Front Door

- Clear view of inside rack
- 4mm tempered glass
- Fitted with earth continuity lead and keyed lock

Internal Side Rails

- Depth adjustable for easy installation
- RU markings on both front and rear rails for easy placement of components

Quick Release Hinges

- Door can be changed to left or right opening
- Quickly and easily remove door for greater access

Accessories

Shelves

The Hypertec range of shelving accessories for our 19" Racks are designed to offer solutions for most requirements and cover many shelf types for floor mounted cabinets of various depths. Some items are suitable for wall mount & swing frame racks.

Perforated Front Doors

Hypertec offers, in addition to the standard door supplied with our floor mounted cabinets, a range of perforated doors for applications where increased airflow is required. Airflow is improved using perforated doors and effective fan configurations to achieve maximum heat dispersion.

The perforations in the door are uniformly punched into cold rolled steel. These doors are supplied for retro fitting to the Hypertec range and are sized according to height measured in RU and width.

Related Products

Patch Panels: CAT5e / CAT6

- Handy replaceable label strips
- · Rear cable management bar and cable ties included
- · Supplied with cagenuts, screws, washers & ties
- ACMA/RCM compliant

Patch Leads: CAT5e, CAT6

- Made from 24AWG stranded bare copper wire with fully moulded strain relief boot
- · Snag-less connectors reduce accidental unplugging
- Compliance: RCM/A-tick (S008), TIA-568-C, RoHS
- Available in a range of colours and lengths

Patch Leads: CAT6 Reduced Diameter

- Made from 28AWG stranded bare copper wire with fully moulded strain relief boot
- Reduced diameter improves flexibility and high density patching
- Compliance: RCM/A-Tick (S008), TIA-568-C.2, RoHS
- Available in a range of colours and lengths

Patch Leads: CAT6a Shielded

- · Made from 26AWG stranded bare copper wire with fully moulded strain relief boot
- Shielding: Individually shielded pairs S/FTP
- Compliance: RCM/A-tick (S008), TIA-568-C, RoHS
- Available in a range of colours and lengths

IEC Power Cords: C13, C14, C15, C19, C20

- Wide range of cords available with Australian 3 Pin and IEC plugs
- Used to power servers, PC's, monitors, UPS's and other equipment
- Range includes 10A and 15A cords
- · Available in a range of lengths

Rackmount and Standalone UPS

- Designed to supply back up power to home PC or small office environment
- Cold start function
- · Short circuit and overload protection
- Available in 600VA, 1000VA, 1500VA, 2000VA and 3000VA
