## NEW PRODUCT GUIDE

Our new **VLF628 and VLF613 Full-Motion mounts** have been re-designed to provide the best TV viewing angles, smoothest motion and easiest use. Perfect for almost any mounting application and feature universal mounting patterns to work with most TVs.

**TOP VIEW**  
Extend, tilt and swivel for a great picture from any seat in the room

Slide TV side-to-side for perfect positioning on the wall

Easily adjust level after installation

Conceal unsightly cables for a clean, organized look

VLF628 SHOWN

The **WSTV1 Swiveling TV Base** is a premium TV base option for consumers who can't or don't want to mount, but want to swivel their TV and want to fit their soundbar or soundbase below their TV. Featuring a stable base, this mount works with narrow and shallow furniture, unlike some TV manufacturer bases.

Swivels up to 40° for a wider viewing range over standard TV bases

Adjusts up to 8" to place TV above soundbar, soundbase or other components

Conceals cables for a clean, sleek look

Stable footprint is perfect for shallow and narrow furniture

WSTV1 SHOWN

The new **Advanced Tilt mount**, our most revolutionary tilt mount, features 5.7" of extension to allow even the largest of TVs to achieve the maximum listed tilt. Perfect for providing the ideal viewing angle for above eye-level mounting applications, like over the fireplace. The extension also provides easy access to cables and wires while the TV is still mounted for future device switches.

**ADVANCED FEATURES**

Extends 5.7" from wall for easy cable hookup

Offers maximum tilting range for large TVs

Easily adjust level and height after installation

Open wall plate design allows mounting directly over electrical outlets

VLT6 SHOWN

**Wireless Speaker mounts** from SANUS feature a small, slim 2.77" profile for a sleek look, while providing tilt and swivel capability for perfect positioning. These speaker mounts are compatible in any wall type and can be used with most wireless speakers.

Designed for use with SONOS® PLAY:1™, PLAY:3™, and other wireless speakers up to 10 lbs

Provides 20° tilt and 65° swivel to perfectly angle speaker

Easy, 15-minute any wall installation; Compatible in wood, concrete and dry wall

WSWM1 SHOWN
